

BY AUTHORITY

Ordinance No. 18.

AN ORDINANCE ESTABLISHING FIRE LIMITS FOR THE CITY AND COUNTY OF HONOLULU, AND REGULATING THE ERECTION AND ALTERATION OF BUILDINGS AND OTHER STRUCTURES WITHIN SUCH LIMITS.

BE IT ORDAINED BY THE PEOPLE OF THE CITY AND COUNTY OF HONOLULU:

Section 1. The Board of Supervisors of the City and County of Honolulu shall appoint a suitable person as Building Inspector of the City and County of Honolulu, whose salary shall be fixed by said Board. Such Building Inspector shall have all of the powers and shall perform all of the duties hereinafter provided, and shall have such other powers and perform such other duties as may hereafter be designated by the Board of Supervisors.

Section 2. That part of the City and County of Honolulu which is bounded and described as follows, to wit: Beginning at a point in the main line of Ala Moana Road 100 feet distant southeasterly at right angles to the extension of the southeasterly line of Richards street and running thence; northeasterly parallel with and 100 feet distant from the southeasterly line of Richards street to the mauka line of Beretania avenue; thence at right angles to the mauka line of Beretania avenue 100 feet; thence northeasterly parallel with and 100 feet distant from the mauka line of Beretania avenue to the north line of River street; thence at right angles to the north line of River street 100 feet; thence westerly parallel with and 100 feet distant from the north line of River street to a point on the harbor front; thence along the harbor front to the place of beginning, and including all the land now or hereafter to be reclaimed therein, shall be known as the fire limits of the City and County of Honolulu.

Section 3. Every building or other structure hereafter built within the fire limits of the City and County of Honolulu as above set out shall have the external walls thereof constructed of brick, stone, concrete, or other approved fire proof material. The interior of such buildings or structures shall be ceiled with fire proof material or lath and plastered; provided, however, that overhead ceilings may be made of tongued and grooved Northwest lumber. The external walls of any such building or structure shall not be covered with corrugated iron roofing or sheet iron or tin. All buildings and structures hereafter erected within said fire limits shall be subject to the inspection and approval, as to location, plans, architecture, materials and construction, from design to finish, of said Building Inspector and the Chief Engineer of the Fire Department of the City and County of Honolulu, and no person shall erect any building or structure within said fire limits without permission in writing from said Building Inspector and Chief Engineer of the Fire Department. It shall be the duty of said Building Inspector and said Chief Engineer of the Fire Department to inspect all buildings and structures hereafter built within said fire limits, and to see that the permits granted by them are complied with according to the provisions of this Ordinance.

Section 4. No wooden building or structure heretofore erected within said fire limits shall be altered, repaired or changed without permission in writing, signed by said Building Inspector and said Chief Engineer of the Fire Department, which permit shall only be granted upon an application in writing accompanied by particulars sufficient to indicate the nature and extent of the alterations, repairs and changes contemplated, and no such permission shall be granted when such alteration, repair or change amounts to a renewal of one-third or more of the original structure. Such permission shall become null and void unless the work for which it is issued is begun within ten days and completed within ninety days after the date of said permission.

Section 5. All openings in party side or rear walls of any buildings or other structures within said fire limits must be protected by iron or tin covered shutters, to be approved by said Building Inspector and Chief Engineer of the Fire Department; and all party, side and rear walls of any building or structure, fifteen feet or more in height, shall be built up and extend at least twenty-four inches above every point where the roof meets the wall, and such wall shall be not less than twelve inches in thickness. Detached buildings, having a frontage on all sides, and constructed with the exterior entirely of fire proof materials, need have no wall above the roof line, but the walls shall extend up behind the cornice to the planking of the roof.

Section 6. Any person violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dol-

lars (\$500.00), or by imprisonment for a term not exceeding six months, or by both such fine and imprisonment.

Section 7. This Ordinance shall take effect fifteen days from and after the date of its approval.

Introduced by Supervisor

DANIEL LOGAN.

Date of Introduction:

March 8, 1910.

Approved this 24th day of March,

A. D. 1910.

JAPANESE ATHLETICS

GIVE DINNER

Splendid Evening's Fun

And Many Good Speeches

Sunday night the Japanese Athletic Club entertained a couple of hundred guests at a dinner in Nottley Hall. The banquet was in honor of the victory of the J. A. Cs. in the Oahu League series, and the enthusiasm shown was immense.

Senator Quinn presided at the festive board, and grouped around him were the officers of the league and other prominent gentlemen. L. L. McCandless, who donated a beautiful silver cup for last season's series, presented the trophy to the victorious Japanese during the course of the evening.

W. W. Harris made a good speech about the Oahu League and how it started up. He traced the scheme right back and gave much credit to his managers and assistants.

Willie Crawford entertained with one of his humorous speeches which brought forth many shouts and much laughter. This is always expected when Willie comes to his feet at a gathering of this kind.

Senator Quinn acted as toastmaster, and he certainly made most of the guests say a few words. L. D. Timmons, who was called upon to speak, spoke straight out for clean sport and fair play. He praised the J. A. Cs. very much and gave them credit for stopping a professional move.

The press was responded to by the Bulletin representative, and the toast was drunk with enthusiasm. There were so many toasts that it was impossible to keep track of them—after a time, that is to say. Townsend made a brilliant speech towards the end of the evening, and his remarks were listened to with great interest.

"Hanzai" Jack Doyle was in great form and his speech was a masterpiece. Jack promised that when he became Delegate to Congress, all the Japanese workers would get \$2.50 a day. At the conclusion of his speech Doyle was surrounded by a bunch of Japanese guests who tossed him up in the air half a dozen times.

The good time was kept up till 10 o'clock, and everybody who enjoyed the hospitality of the Japanese Athletic Club will always carry pleasant recollections of the same. Among those present were Messrs: Iida, president of the Asahi Club; Onodera, vice-president of the J. A. C.; Mikami, Surigara, of the Japanese Consulate; Daimaru, Ito, Dr. Haida, Yamashiro, Wada, Yasumari, Yamada, Soyeda, Hayakawa, McCandless, Harris, Quinn, Vierra, Vercellino (2), Timmons, McDuffie, Zabiane, Stevenson, McMahon, Raposo, Townsend, Burgess, Camara, Doyle, W. Crawford, and many others whose names can not, under the circumstances, be remembered.

A large troupe of Gelscha girls gave performances during the evening, and some of the dances were so good that they were encored. Two little tots brought down the house with a dance that was certainly very attractive. The evening broke up with a toast to Senator Quinn, and cheers were then given for the Japanese Athletic Club.

HIGH SCHOOL MEN

ARE ENTERTAINED

Two dinners were given during last week by admirers of the High School athletes. The track team was first entertained by K. Abies, who invited some fifteen schoolboy champions to partake of a fine banquet. A most enjoyable time was spent at the Abies home and many toasts were honored.

After dinner numerous games of cards were played, and a good time generally had by the guests. The merry party broke up at 11 o'clock and cheers were given for the host.

The second dinner to the victorious High was given by Gavin Bush and he did things in style. The spread was just the thing to appeal to a bunch of schoolboys who had broken training for a while, and the lads certainly did justice to the feast.

There was singing and music during the evening and some of the guests indulged in cards. Mr. Bush was everywhere at once and entertained his visitors in the most hospitable manner.

YOUNG IS ADMIRAL

VALLEJO, March 17. — Captain Lucien Young was made a Rear-Admiral today, according to a dispatch which was received by the naval officials on Mare Island today. Young is now stationed at the Pensacola station in Florida, but was formerly captain of the yard here. He is one of the best known officers in the Navy, and his advancement today makes him the youngest Rear-Admiral in the Navy.
